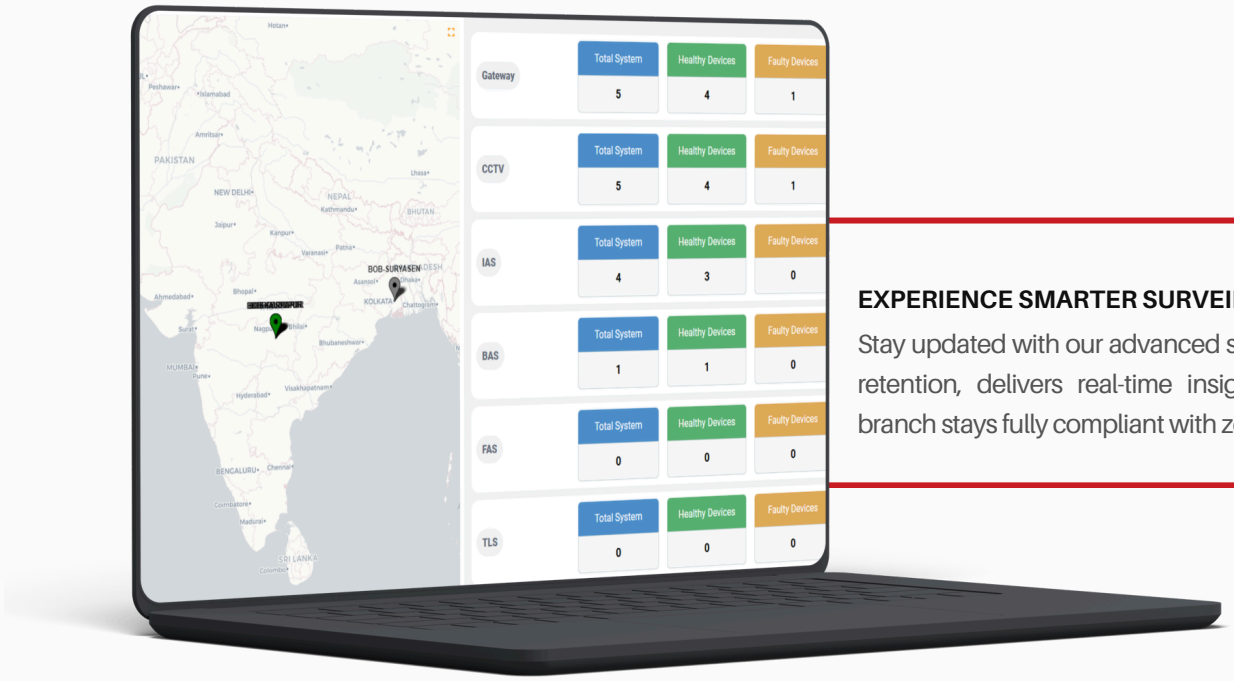
# SWATCH 360 - Health Monitoring System

## Intelligent Security Performance



**EXPERIENCE SMARTER SURVEILLANCE COMPLIANCE**

Stay updated with our advanced system that tracks camera retention, delivers real-time insights, and ensures every branch stays fully compliant with zero effort.

- REAL-TIME DASHBOARD ACCESS
- AUTOMATED ALERTS
- MULTI-LEVEL REPORT DELIVERY
- CAMERA RETENTION TRACKING
- ACS & GATEWAY MONITORING
- MULTI-LEVEL REPORT DELIVERY
- ANALYTICS, SLA & HIERARCHY

## Core Features

- **Unified Monitoring Dashboard**
  - Pan-India map showing live device locations
  - Real-time health overview for CCTV, IAS, FAS, BAS, ACS, TL & Gateway
  - Branch-wise system summary with color-coded indicators
- **CCTV Health, Recording & Inventory**
  - Camera online status, recording days, storage usage & HDD/SD health
  - Highlights cameras with less than 90 days of recording
  - Inventory report: Branch name, make, model, manufacturing date, HDD slots & average recording days
- **Analytics, SLA**
  - Branch-wise uptime matrix & hourly device activity patterns
  - TAT/SLA monitoring for faults across all systems
  - Customer dashboard with recording reports & structured
- **Device & System Diagnostics**
  - Detailed status for power, tamper, network, battery, HDD, camera & link
  - Alarms, errors, severity, and TAT tracking across all systems
  - Uptime monitoring with daily/weekly/monthly performance trends
- **Access Control & Gateway Monitoring**
  - Heartbeat, device health, user count, door/magnet sensor status
  - Complete device identity (model, firmware, serial, network details)
  - Gateway-specific diagnostics ,including AC voltage, current & battery voltage
- **Alerts, Logs & Automation**
  - Multi-channel alerts: SMS, WhatsApp, Call, Email
  - 24-hour system logs, device events & communication tests
  - Auto-generated daily PDF reports delivered to all hierarchy levels
